AGE WORKS PROJECT

DISABILITY STATEMENT

Age Works encourages participation in its learning and training programmes by all sections of the community and the industries it serves. Age Works will, as a matter of policy, try to ensure that students with learning difficulties and/or disabilities are able to follow a program of study most suitable to his or her needs with appropriate support. This support will be monitored, reviewed and changed as necessary. .

Age Works will endeavour to ensure that access to teaching rooms is appropriate and relocate teaching areas if required. We will also ensure that, where possible, all areas are accessible and, where this is not feasible, ensure that alternative arrangements are made and that support and assistance is provided whenever this is possible.

Age Works is committed to responding to individual client needs and has made resources available to ensure that prospective clients have access to individual guidance when they come into contact with us. Age Works will keep the policy and its implementation under review to ensure that appropriate support is given to clients so they can achieve their goals which were identified at the beginning of their assessment or re-negotiate other appropriate outcomes

Age Works Equal Opportunities Policy Statement also states the company's commitment to ensure that no client receives less favorable treatment on the grounds of any physical or other disability.
